

**TRAINING IN TRANSLATIONAL PROTOCOLS
FOR MINIMAL INVASIVE DIAGNOSIS AND
THERAPY IN PANCREATICO-BILIARY CANCERS**

Horizon Europe TRIP

TRIP Webinar Program: Cystic Pancreatic Neoplasms

Chairmen: Prof. Mariana Jinga, Prof. Cristian Gheorghe

DATE: November 19th, 2024, 17:00 CET / 18:00 Bucharest

Target Audience: Gastroenterologists, Endoscopists, Pathologists, Radiologists, Oncologists, and related healthcare professionals

18:00-18:05 | Opening Remarks

Speakers: Prof. Cristian Gheorghe, Prof. Mariana Jinga

Topic: Introduction to the webinar topic, objectives, and importance of multidisciplinary collaboration in managing cystic pancreatic lesions.

18:05-18:30 | Diagnosis of Cystic Pancreatic Lesions: Guidelines and Imaging

Speaker: Prof. Adrian Săftoiu

Topics:

- Overview of the latest guidelines for the diagnosis of cystic pancreatic lesions.
- Role of imaging modalities (CT, MRI, EUS) in the diagnosis.
- Differentiation between benign and malignant cystic lesions.
- Case studies and clinical scenarios.

18:30-18:55 | EUS-Guided FNA/FNB: Techniques and Clinical Applications

Speaker: Prof. Peter Vilmann

Topics:

- Indications for EUS-guided FNA/FNB in cystic pancreatic lesions.
- Techniques, including the use of Marray forceps for biopsies.
- Complications and how to manage them.
- Case examples demonstrating the utility of these procedures.

TRIP

TRAINING IN TRANSLATIONAL PROTOCOLS
FOR MINIMAL INVASIVE DIAGNOSIS AND
THERAPY IN PANCREATICO-BILIARY CANCERS

18:55-19:20 | Pathology and Molecular Evaluation of EUS-Guided Samples

Speaker: Dr. Nona Bejinariu

Topics:

- Interpretation of cytological and histological findings from EUS-guided samples.
- Molecular analysis techniques and their role in diagnosis and prognosis.
- Integration of pathology and molecular data in clinical decision-making.
- Case studies showcasing different pathological outcomes.

19:20-19:45 | Minimally Invasive Therapy for Cystic Pancreatic Lesions

Speaker: Prof. Stephen Pereira

Topics:

- Overview of minimally invasive treatment options for cystic pancreatic lesions.
- Criteria for selecting candidates for these therapies.
- Techniques such as radiofrequency ablation and laparoscopic surgery.
- Outcomes and long-term follow-up of treated patients.

19:45-20:15 | Panel Discussion and Q&A

Speakers: All Presenters and Moderators

Topic: Open discussion addressing questions from the audience, with a focus on integrating the different aspects covered during the presentations.

20:15-20:20 | Closing Remarks

Speakers: Prof. Mariana Jinga, Prof. Cristian Gheorghe

Topic: Summary of key points discussed, closing thoughts, and announcement of any upcoming events or webinars.
